

### About our College

Sri Sarada College for Women, An Institute of Life training was started by the Founder-President Swami Chidbhavananda of Sri Ramakrishna Tapovanam in 1986. The college has witnessed a consistent progress for the past 33 years and currently offers 11 UG, 6 PG and 4 M. Phil., and 2 Ph.D., Programmes.

### About our Department

The Department of Computer Science was establishment in the year 1988 and research was started in the year 2018. The department organizes various inter-collegiate/State/National/International level Meets, Guest lectures, Seminars, workshop and Symposia in order to meet various updates in IT sector. The department also brings out current ideas from different experts together to enrich our student/scholars with current developments. The vision of the Department is to make the students more innovative and work on current developments. It also strives to design current and relevant inputs to transform the students as socially responsible students.

### Objective of the Seminar:

Computing is any activity that uses computers to manage process and communicate information that uses high-performance CPU and GPU technologies including high-performance super computer and network computing technologies. Assistive Technology is a set of devices intended to help people who have disabilities. Many assistive devices are built using Artificial Intelligence (AI) technologies, including real-time speech-to-text transcription and visual recognition tools. Digital learning is any type of learning that is accompanied by technology or by instructional practice that makes effective use of that technology. Hence, it is the responsibility of academic community to pave way to take this message to the current student children. With this major object this programme is organised.
