

Dear Students and Parents of students,
Namaskaram. You might be aware of various news regarding examination, admission and reopening of the colleges. As per current statistics revealed by the Health Ministry, WHO, ICMR, etc., the seriousness of COVID pandemic will be severe. Hence, our dear students of Sri Sarada College for Women should serve as "Social Health Ambassadors" awakening the local people to be serious about the virus and insist to adhere to all the precautionary measures continuously shared by the media. Be safe.

With regards, Director and Secretary.
