BODHI International Journal of Research in Humanities, Arts and Science

The BODHI International Journal of Research in Humanities, Arts and Science (ISSN: 2456-5571) is online, peer reviewed, Refereed and Quarterly Journal, which is powered & published by Center for Resource, Research and Publication Services, (CRRPS) India. It is committed to bring together academicians, research scholars and students from world who work professionally to upgrade status of academic career and society by ideas and aims to promote interdisciplinary studies in fields of humanities, arts and science.

Editor's Message

Research should be the core and must be instrumental in generating a major interface with the academic world. It must provide a new theoretical framework that enables reassessment and refinement of current practices and thinking. This may result in fundamental discovery and extension of knowledge acquired. Research is meant to establish or confirm facts, reaffirm the results of previous works, solve new or existing problems, support theorems, or develop new theorems. It empowers the faculty and students for an in-depth approach in research. It has the potential to enhance the consultancy capabilities of researchers. In short, conceptually and thematically active attempts to provide these types of common platforms on educational reformations through research has become the main objective of this Journal.

Subjects for Papers

The journal welcomes publications of quality papers on research in humanities, arts, science, agriculture, anthropology, education, geography, advertising, botany, business studies, chemistry, commerce, computer science, communication studies, criminology, cross-cultural studies, demography, development studies, geography, library science, methodology, management studies, earth sciences, economics, bioscience, entrepreneurship, fisheries, history, information science & technology, law, life sciences, logistics and performing arts (music, theatre & dance), religious studies, visual arts, women studies, physics, fine art, microbiology, physical education, public administration, philosophy, political sciences, psychology, population studies, social science, sociology, social welfare, linguistics, literature and so on.

RATIO MATHEMATICA

RATIO MATHEMATICA - JOURNAL OF MATHEMATICS, STATISTICS, AND APPLICATIONS

Ratio Mathematica is a historical journal of Mathematics and Statistics that has been publishing scientific articles for more than thirty years. Ratio Mathematica, founded by Prof. Franco Eugeni, was born in 1990 in Pescara, a city located in the Abruzzo region of Italy. Since the first years of activity, the journal has always been characterized by a strong internationalization.

Ratio Mathematica is an open-access journal that publishes an issue every six months (in June and December). The journal is interested in original research articles on theoretical and applied Mathematics and Statistics.

Only English-language publications are accepted. We invite authors who are not native speakers to use external services to check the grammar and correctness of the English language. A paper with an unsatisfactory level of the English language will not be considered for publication, regardless of the mathematical and statistical content.

The main topics of interest for Ratio Mathematica are:

- Advances in theoretical and applied mathematics and statistics;
- Decision making in conditions of

About the Journal

Rock workmanship is a worldwide peculiarity and India is one of only a handful of exceptional nations on the planet having the most extravagant fortunes of rock craftsmanship. Rock fine arts the earliest appearances of the people made on the exposed surface of various types of rocks. The majority of the stone craftsmanship destinations are situated in a quiet climate of nature. To investigate and comprehend them is a test. Just those with a gutsy and imaginative soul and incredible enthusiasm to accomplish the objective can address this difficulty.

Rock workmanship destinations are perhaps the best declaration of the human soul, and mirror the immortal characteristics of energy, experience and inventiveness required for any general public whenever to advance and carry on with a significant quality life. Consequently, rock workmanship locales have been an extraordinary wellspring of motivation for people, right all along and will keep on doing as such in future too.

We are to advance the investigation, logical examination, advocacy, security and preservation of rock craftsmanship. This site is our modest recognition for our venerated master, late Padmashri Dr Vishnu Shridhar Wakankar, the doyen and principal architect of rock workmanship science in India.
