PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED

The students of the rural areas if their parents are away from home for working, during daytime, is enforced to involve themselves in household chores, including taking care of their siblings after reaching home. These students may not get ample time for their academic preparation which leads to less concentration on their studies and related to that they show poor performance and are not eligible to avail scholarships. Special attention is given for such students by giving additional coaching either within the college hours or one hour after 4.30pm to score more marks and to make use of the scholarships so that all students can be benefited.
