

Secretary's Message

The Universal Message of Swami Vivekananda is taking widespread everyday, withstanding all kinds of resistance from the world of fancy. In this age of Information Technology, it is the faculty of reasoning which man currently relies upon and it is certainly the way of the future. This is what we target through the Higher Education, not of course casting aside the need of earning livelihood and having a social living enriched with high Ethical Values through the development of Modern Science. Thus, harmoniously synthesize Indian Spirituality and Western Science. This is indeed our students should understand and the monastic Staff members of our college are engaged in translating the idea into reality as far as practicable. Let everybody join hands for this noble cause.

Yatiswari Saravanabhavapriya Amba

Secretary's Message

Shaping young minds is one of the most challenging as well as interesting tasks in the present times. Each child's future follows a different path and momentum. In order for them, to succeed in the 20th century, we will need to provide with an education embedded with Indians Culture and Tradition. Knowledge being the most democratic source or power, we must impart quality education to our young scholars who are the key agents in the process of development and harmony. We are committed towards preparing Nirai Nangaiyars (The Perfect Women) who continues to inspire our future generations to make us ground by the commendable contribution to the industry & society.

Dr. Smt. M. Malarvizhi
